- Risk Mitigation

Application - Industry

Law Enforcement / Municipal

Private Security / Armored

Fire / First Response

Education / Campus / Malls

Job Site Walk / Technician

Delivery / Logistics

Towing / Repo / Vehicle Service

Housekeeping / Hospitality

Concert / Sports / Amusement Park

BCR-400 Overview

The Ventra BCR-400 is an innovative and rugged HD body worn camera which records 1080P HD Video, Audio and High Resolution images and GPS Coordinates.

1080P HD Camera with IR LED

140 degree wide angle recording/viewing

Record Audio, HD Video, and Image

Embedded 32GB storage w/ password protection

Device ID / Date & Time stamp

Built-in 2" LCD Screen for instant playback, battery, storage, recording time status

Embedded Passive GPS – coordinate watermark

Standard Media Player / Free GPS Viewer

No Recurring License / Fees

Feature Highlights

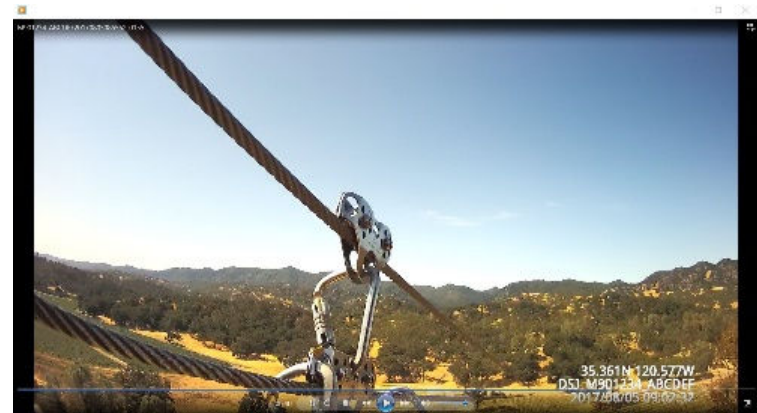

- 1296/ 1080P / 720P HD Video Recording
- Superior IR LED Night Vision
- 140 degree wide angle recording
- Embedded 32GB Storage
- Embedded Passive GPS
- Embedded 2900mA Li-Ion Battery
- Video storage approx. 8 hrs @ 1080P / 13hrs @ 720P
- Battery up to 5 hrs of continuous / 12 hrs standby
- Built-in Mic / Speaker
- 2" LCD Screen – System Status, Battery, Storage
- Event / Continuous Recording (5/10, 15, 30,45 min/file)
- Password Protection (Viewing, Settings, Download)
- Instant Playback (Audio, Video, Image)
- Bookmark Recordings
- Pre Event Video - 30 Seconds
- Opensource GPS Video Viewing Software
- Assignable Officer ID / Device ID
- Date, Time, ID and Coordinate Watermark
- H.264 MP4 Format
- No special software required
- Rotate / Tilt harness bracket
- IP 65 - Dust proof and water resistant
- Cost effective - No monthly fees

Vivid HD Video / Image

BCR-400 incorporates advanced video processing algorithm and Ambarella A7 chipset to capture clear and vibrant HD images

1080p
FULL HD
HIGH DEFINITION

Superior Night Vision

BCR-400 Content

- Main Camera
- Short Clip
- Epaulet Clip
- Charging Dock
- Wall Charger
- Car Charger
- USB Cable

Embedded

- 32GB Storage
- Passive GPS
- Li-Ion Battery

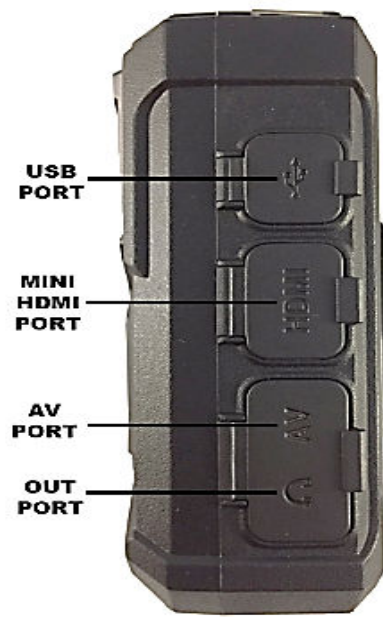

BCR-400 System Layout

Recording Option

One Touch Recording:

1. Video + Audio
2. Snapshot Image Only
3. Audio Only
4. Bookmark Recording

4. Bookmark Recording
3. Audio Only
2. Snapshot
1. Video + Audio

Flexible Recording Option

The BCR records video in 2 modes:

1. **Event**

Record only when Record button is activated

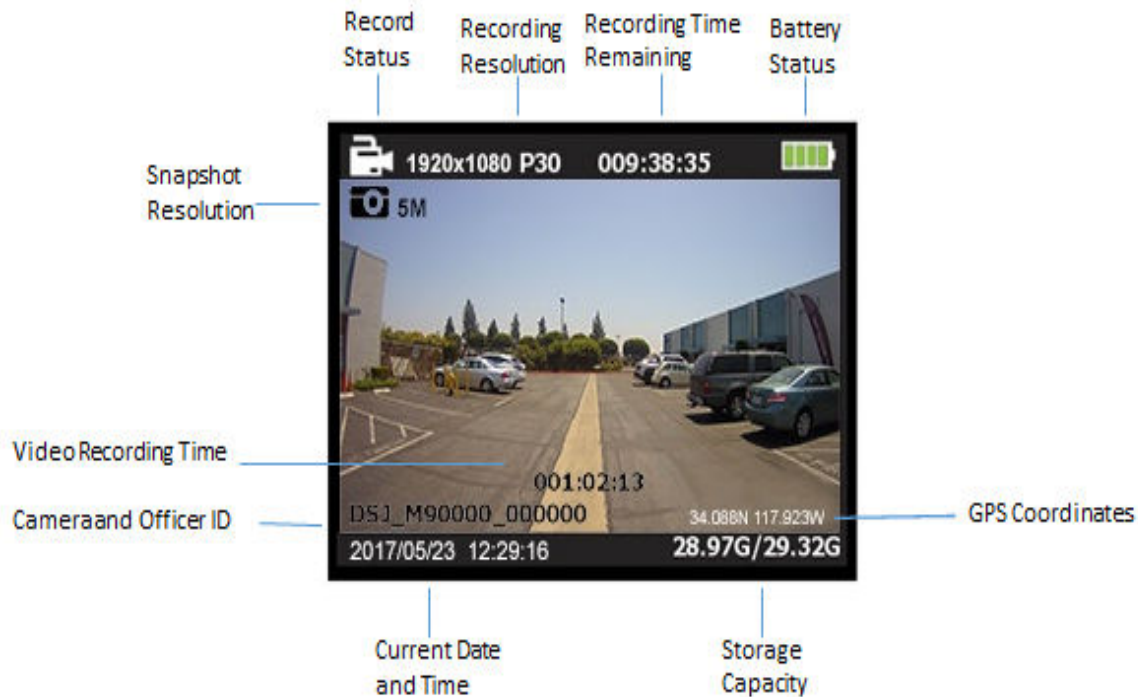

2. **Continuous**

Record continuously, each file can be set to 10, 15, 30, or 45 minute per file. Once segment time is reached, BCR automatically starts and record a new file.

This allows for easy viewing and file management

Multi Display

BCR-400 provides various system status indicator – LED 1 & 2, LCD Screen and Audible Beeps

Vital information clearly displayed in the built-in screen, allowing users to know precise status of the system

Recording Time / Battery Life

Battery – Continuous Video Recording

	1080P	720P	480
Battery	6 Hours	9 Hours	11 Hours

Video Recording Storage

	1080P	720P	480
32GB	7 Hours	12 Hours	15 Hours

- BCR will last anywhere from 8 to 15 hours if used intermittently and power saver mode is enabled

- Auto Loop Recording feature available to rewrite data

- Car charger may be used to recharge the BCR while in vehicle

All figures are approximate and may vary based on settings, battery condition, IR and GPS

Benefits and Differences

BCR-400

Benefits of BCR-400

SAFETY | Sales | MANAGEMENT

Safety / Security

- Video / Audio Documentation
- For training and SOP
- Mitigate risk and liabilities
- Increase user awareness
- Enhance transparency

Sales / Installation

- Sales - Job Site Walks, accurate quoting
- Installation tool - camera
- Proof of service, installation, delivery
- Enhance customer service
- Documentation of site for archive

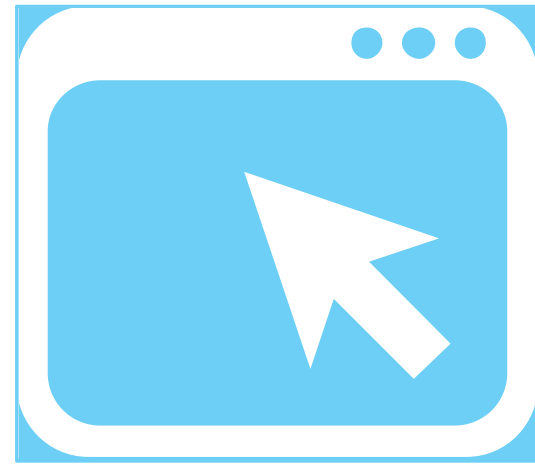

Management

- No recurring fee
- No special software required
- Password protection – setting, viewing
- Enhance productivity

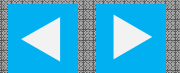

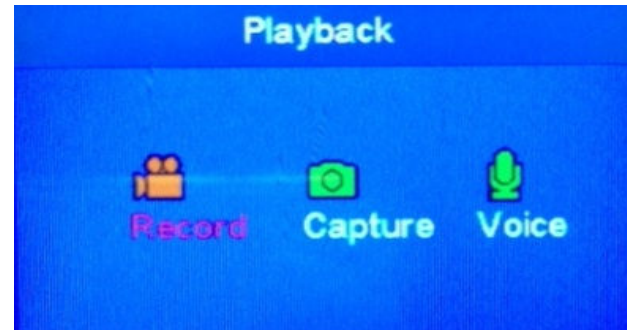

VIEWING

Easy and Convenient
Playback Management

Instant Playback

Recordings can be conveniently viewed directly on the BCR

Password protection prevents unauthorized access.

As a safety precaution, no recordings can be deleted directly on the BCR
